YEAR 5, ₹ CRORE

Interest earns more than a fee, but needs capital.

Sources: A16, A20. Table: base_yearly.csv

EBITDA turns positive in month 55; PAT in year 5.

₹ crore	Y1	Y2	Y3	Y4	Y5	Y6	Y7	Y8
Revenue	0.5	6.9	57	228	468			
CM3	–5.4	–36	–111	–87	78			
EBITDA	–9.2	–48	–148	–155	–7.9			
PAT	–8.0	–39	–129	–126	17			

years 6–8: context

Year 4 EBITDA is –₹155 crore, the low point.

Sources: A16. Table: base_yearly.csv

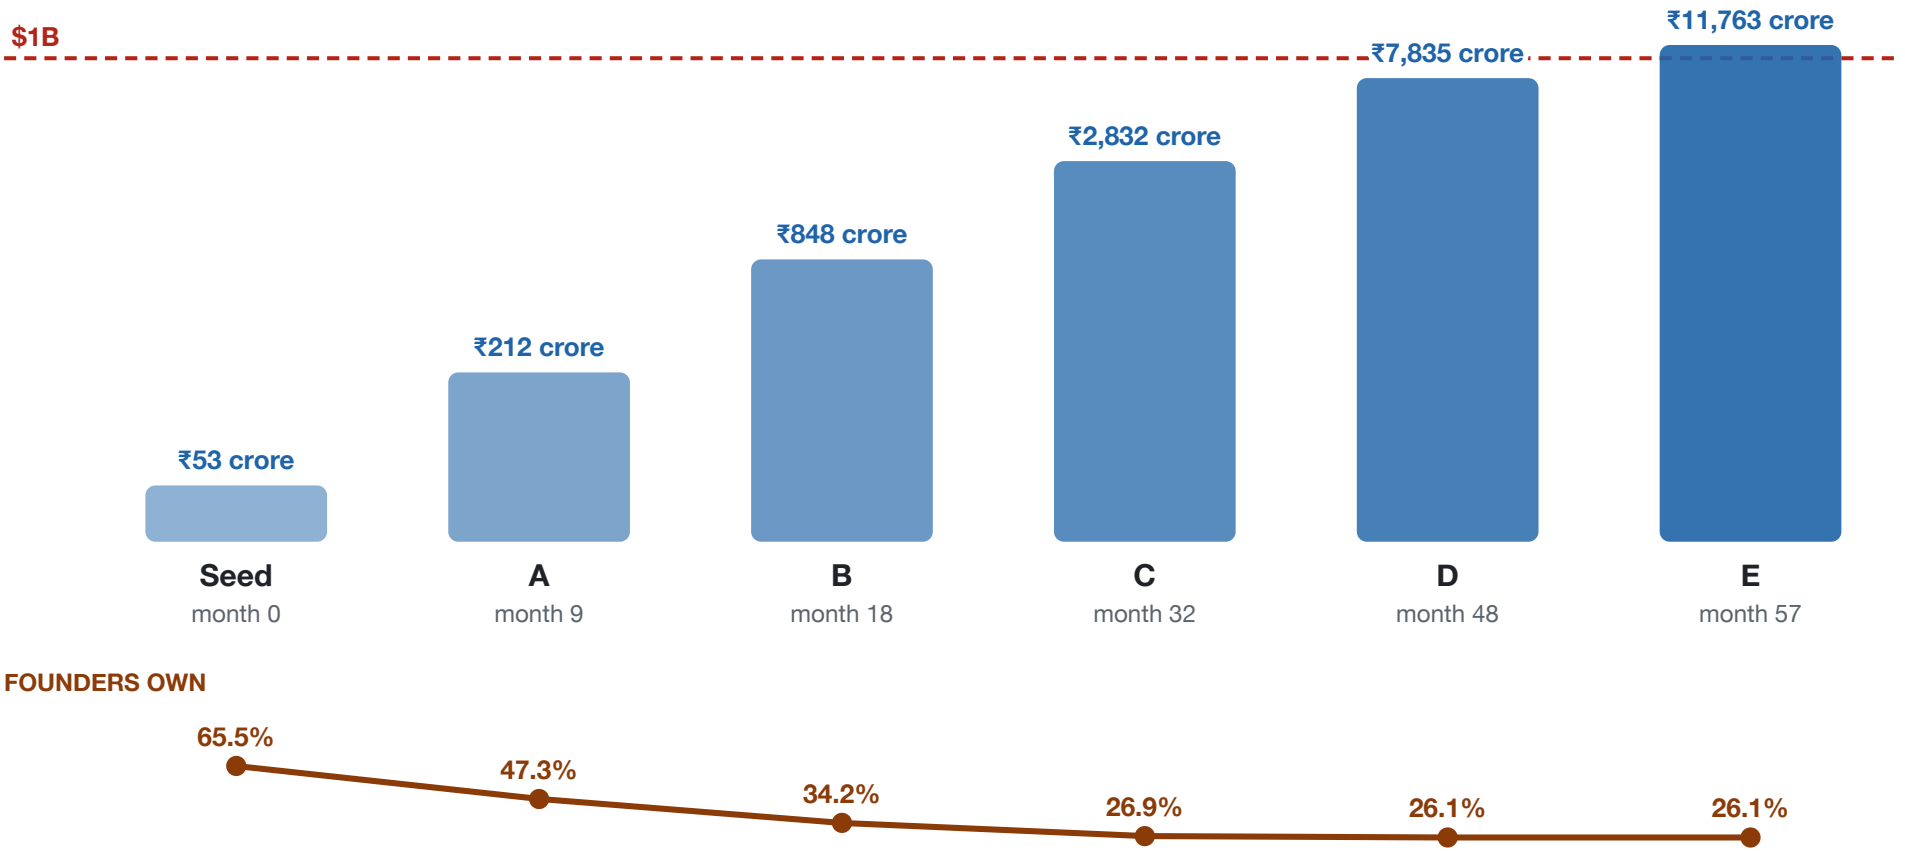

Cash and the rounds: 6 raises, ₹1,108 crore in all.

Each round lands before cash falls to six months of burn.

Sources: A15, A17. Tables: base_monthly.csv, base_rounds.csv

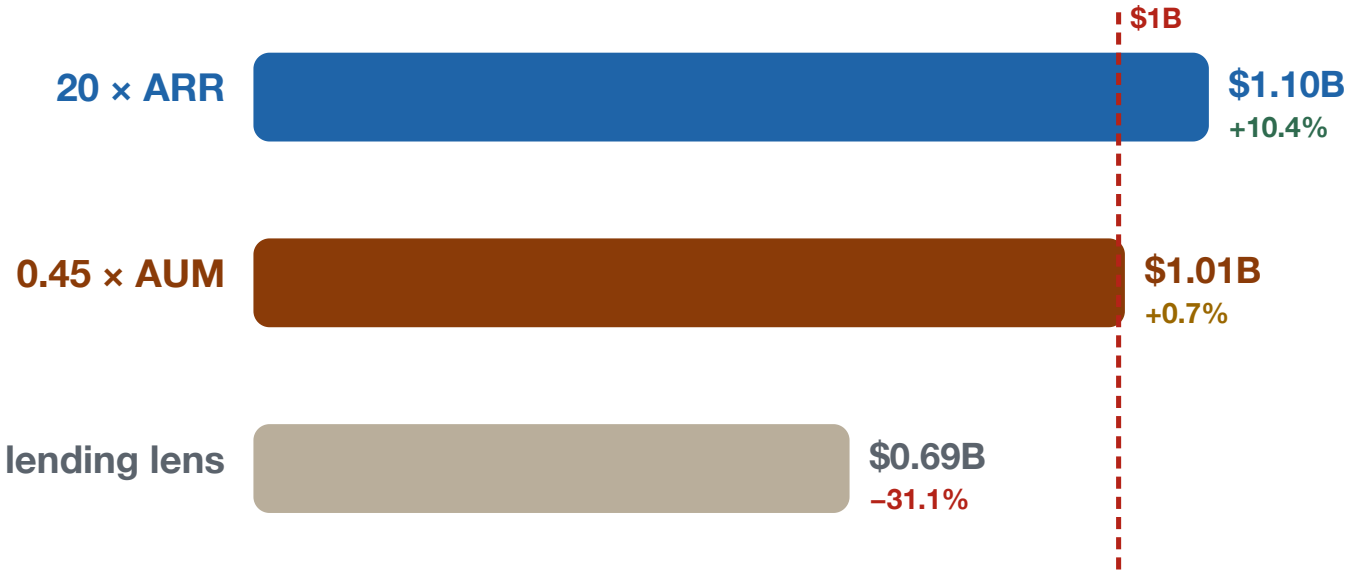

Founders keep 26.1% after the last round.

Late rounds are small, so they barely dilute.

Sources: A15. Table: base_rounds.csv

Unicorn on paper from month 59, but only just.

29% of futures clear lenses 1 and 2 at month 60

EVERY MULTIPLE IS

our judgement, one comparable (Stable Money)

At month 60, lens 2 clears by 0.7%; the lending lens says $0.69B.

Tables: base_lenses.csv, base_mc_summary.csv

Which share of loans on our book?

	15% on book	30% on book (base)	50% on book
Loss on our book	1.50%	1.80%	2.25%
Raised by month 60	₹643 crore	₹1,108 crore	₹1,033 crore
Year-5 PAT	₹32 crore	₹17 crore	₹94 crore
Both lenses clear (MC)	6%	29%	35%

50% earns more only if its weaker loans lose as little as assumed.

Table: share_compare.csv

After year 5, savers fall as cities fill.

New towns

beyond the 500 cities

A wider segment

beyond the urban self-employed

More products

more from each saver

Growth after year 5 needs new towns, a wider segment or more products.

Table: base_yearly.csv

The plan in one line: prove one agent, then build the base.

Prove one agent

- one salaried agent, 12 months
- stop below 44 sign-ups a month
- or 26% still saving

→

Then build the base

- 300 agents by month 18, +150 a month
- our own NBFC from month 30
- ₹1,108 crore in 6 rounds

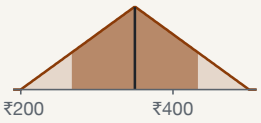

One agent: 9 of 10 futures in profit by month 60.

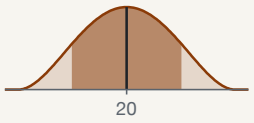

Sources: pages 16–26.

Table: cohort_det_monthly.csv

A10 APPENDIX · ONLINE COST METHOD

How we estimate the online cost to win: ₹499 a saver

WHAT WE CAN SEE PUBLISHED

Groww
₹796–1,374 a customer, with 83% coming free

Finance-app installs
₹100–300 each

Jar, Stable Money
₹249 a saver, only if half of sign-ups save

for shopkeepers:
the same, × 1.1
our judgement: none is published

COST TO WIN A SAVER

EACH SAVER STILL SAVING AFTER A YEAR

÷ 24.2 of 100 still saving after a year
(our evidence curve for an app)

Tables: distributions.csv, story_unit.csv

A11 APPENDIX · THE ONE INTERVIEW

One janta agent, 15 October 2026

QUESTION	A JANTA AGENT'S ANSWER (15 OCT 2026)
Book size	**200 to 400 customers**
Daily deposit	**₹200 to 500**
Monthly income of a typical customer	**₹20,000 to 40,000**
Have UPI (of 10)	**9 or 10**
Of every ₹100 collected, in cash	**90 or more**
Why cash despite UPI	**Habit**
What customers need most	**A loan**
How long most customers have saved with him	**Over 5 years**
New customers last month / closed last month	**6 to 10 / 6 to 10**
Pay	**Fixed salary ₹15,000-25,000; under 2% on collections**

Research: the interview notes (identity withheld)

A12 APPENDIX · WHAT IS LEFT OUT

What is left out, and the open questions

Tele-sales and AI support

inside the ₹5 running cost

Managers

the founder in the pilot; team leads at scale are not counted

Cash route

needs a legal opinion

The customer app's build

not yet costed

Partners' licences

our own fund-distributor code (ARN); insurance through a broker partner (we keep about 75%); lenders' direct sourcing partner

Rules risks

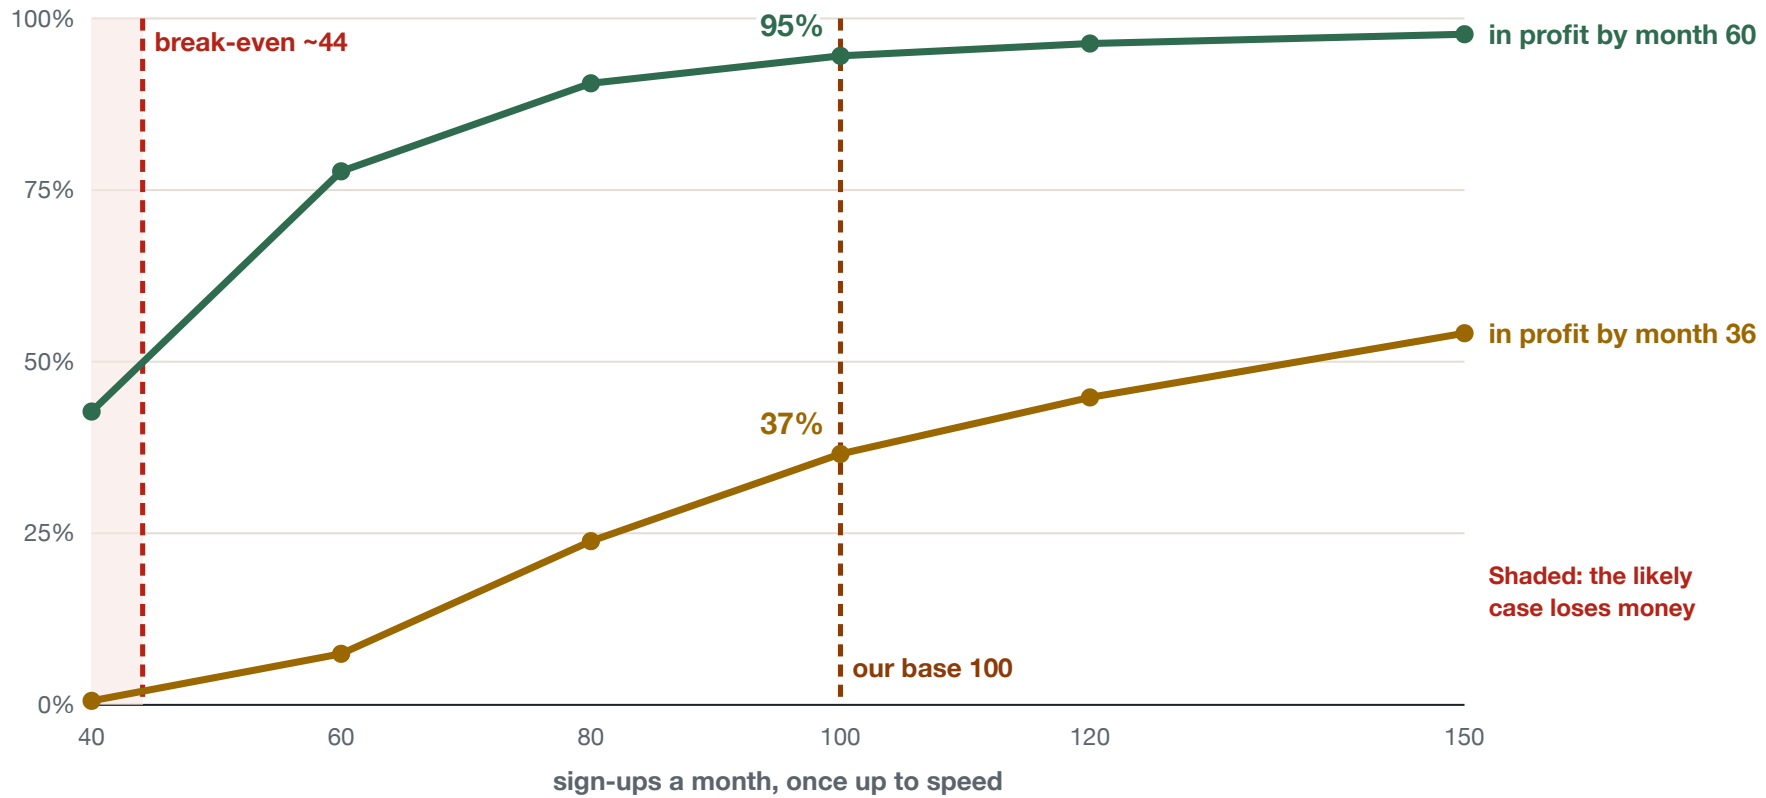

IRDAI caps (in the base), SEBI on digital gold

Cash cover

fidelity and cash-in-transit insurance about ₹1,000 per agent a month (in the numbers)

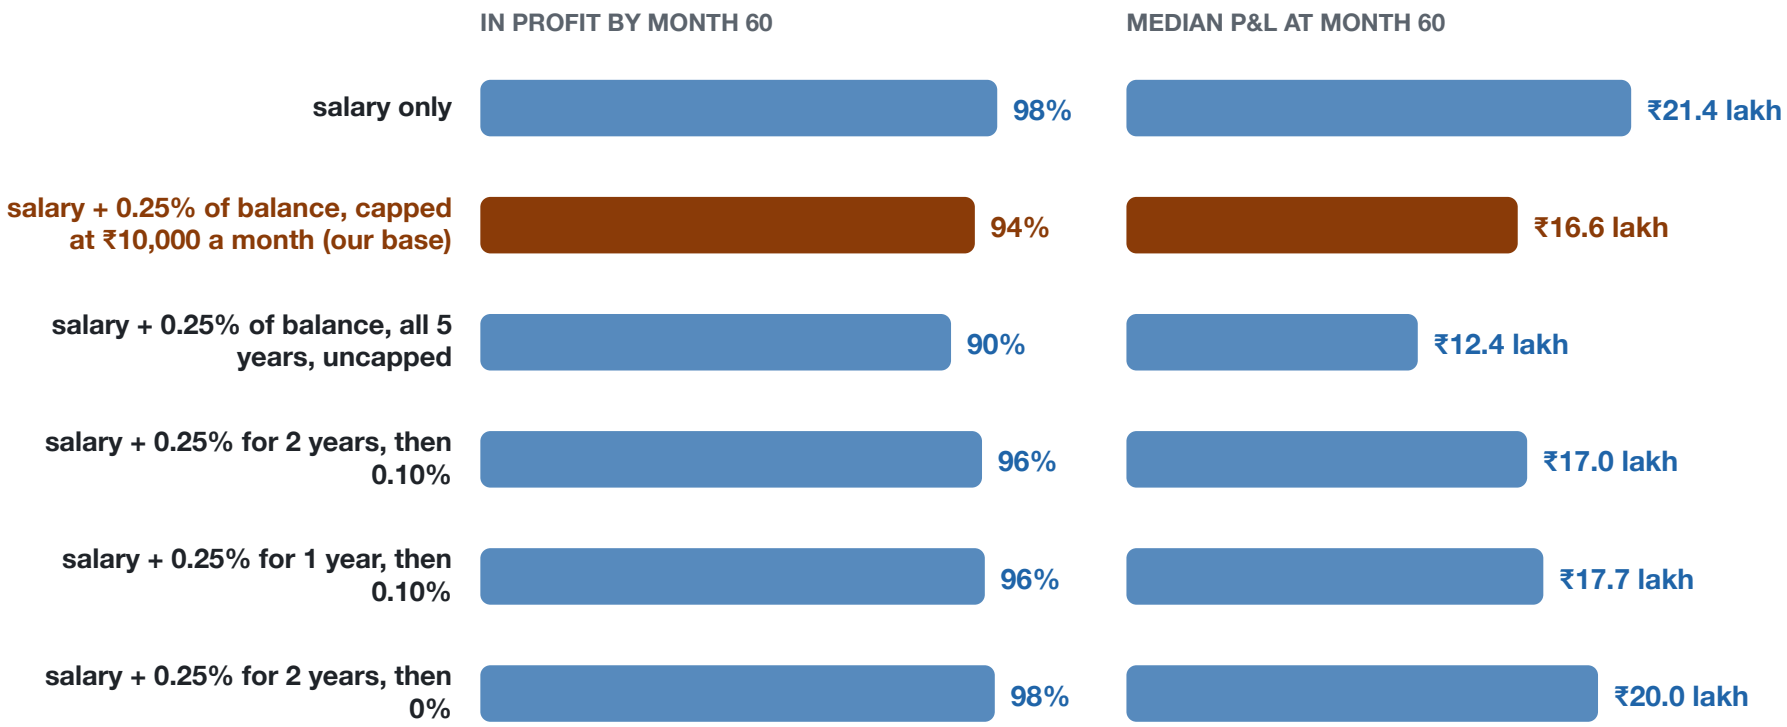

Change notes, 16 Oct (rounds 5 and 6)

How many sign-ups a month?

Tables: cohort_signups_sweep.csv (a Monte Carlo at each point), cohort_signups_sweep_likely.csv (likely values)

Paying the agent

With the cap, 0.10% after year 5 saves nothing: it pays ₹500 more at month 60

Our base pays him about ₹4.9 lakh over 5 years on top of his salary (median).

Table: cohort_incentive_sweep.csv (the base inputs, ways to pay him)

A15 APPENDIX · THE COMPANY

Rounds, valuations and the cap table
