Payments and other lenders' loans, with housing

Home-loan caveat: a ₹25 lakh loan over 20 years at ~9% has a ₹22,500 EMI, which needs ~₹45,000 a month of income at the 50% rule; his savers earn ₹20–40k (IV-04), but family income counts (operator), so co-applicants widen who qualifies.

About 2.9 first loans a year per 100 active savers; 8 in 10 draws: 1.8 to 4.5

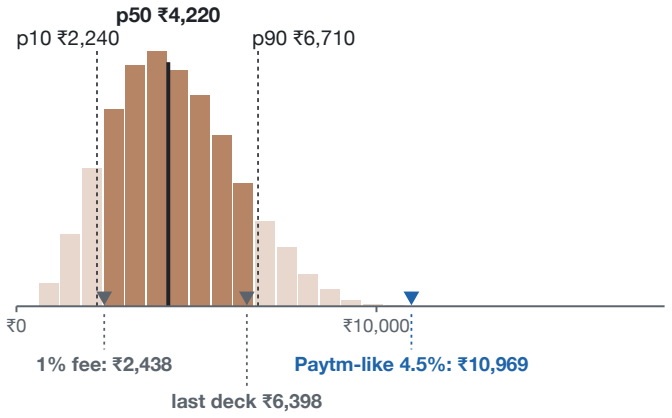

Apply for a loan, a year: likely 18% (8%–35%)

Eligible for ₹2.5 lakh: likely 45% (25%–65%)

Approved, first loan: likely 35% (20%–50%)

First loans per 100 active savers a year

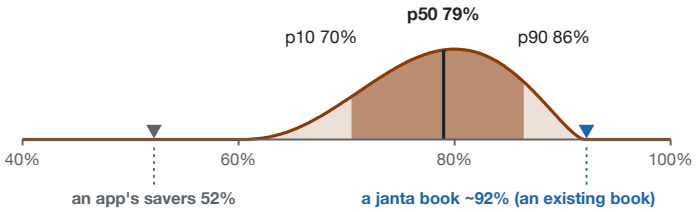

Fee per loan at the start: size × fee × kept

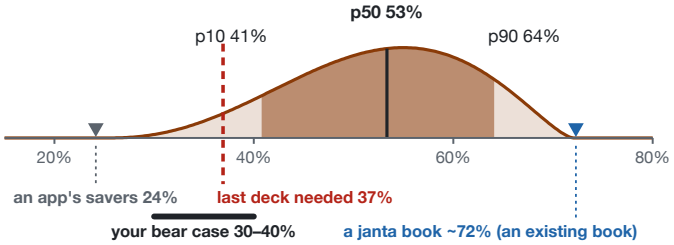

The middle sits near the older evidence's 2.5. If a saver with a loan running cannot apply, it falls to 2.6.

Sources: XL-41, XL-42, LS-06, XL-48

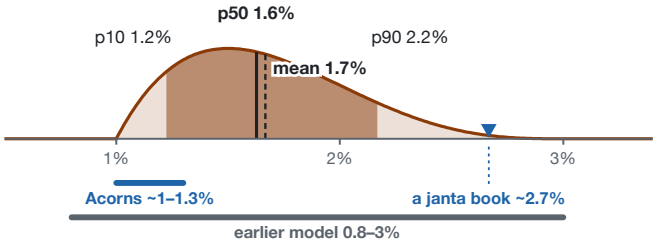

Still saving after a year: agreed at 55%; the last deck needed 37%

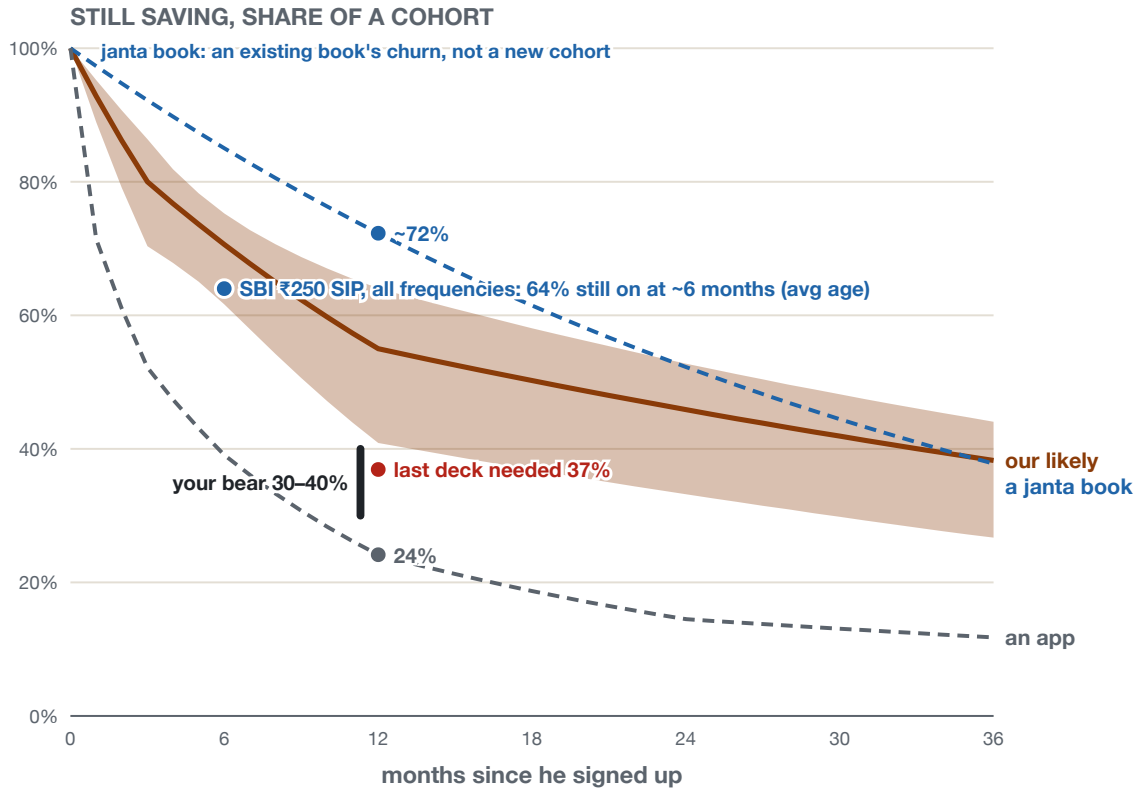

Still saving, month 3: likely 80% (60%–92%)

Still saving, month 12: likely 55% (25%–72%)

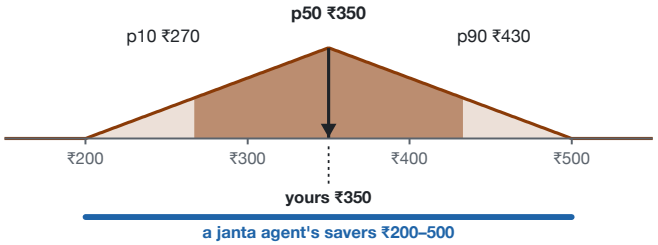

Later monthly drop-off: likely 1.5% (1%–3%)

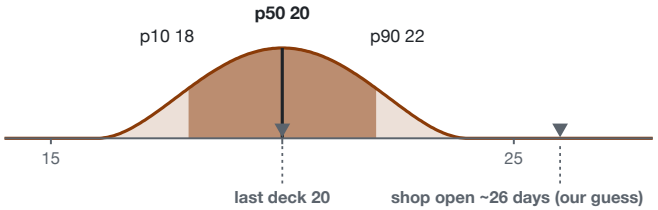

Sources: IV-01, IV-11, IV-12, TB-11, XO-05

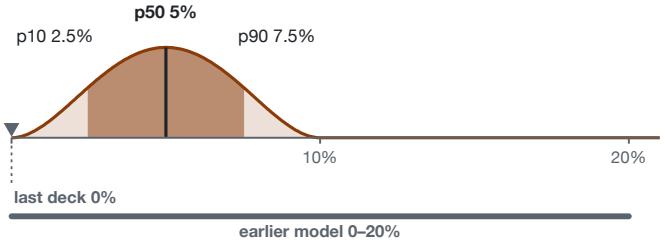

About ₹7,000 a month at the start, rising a little each year

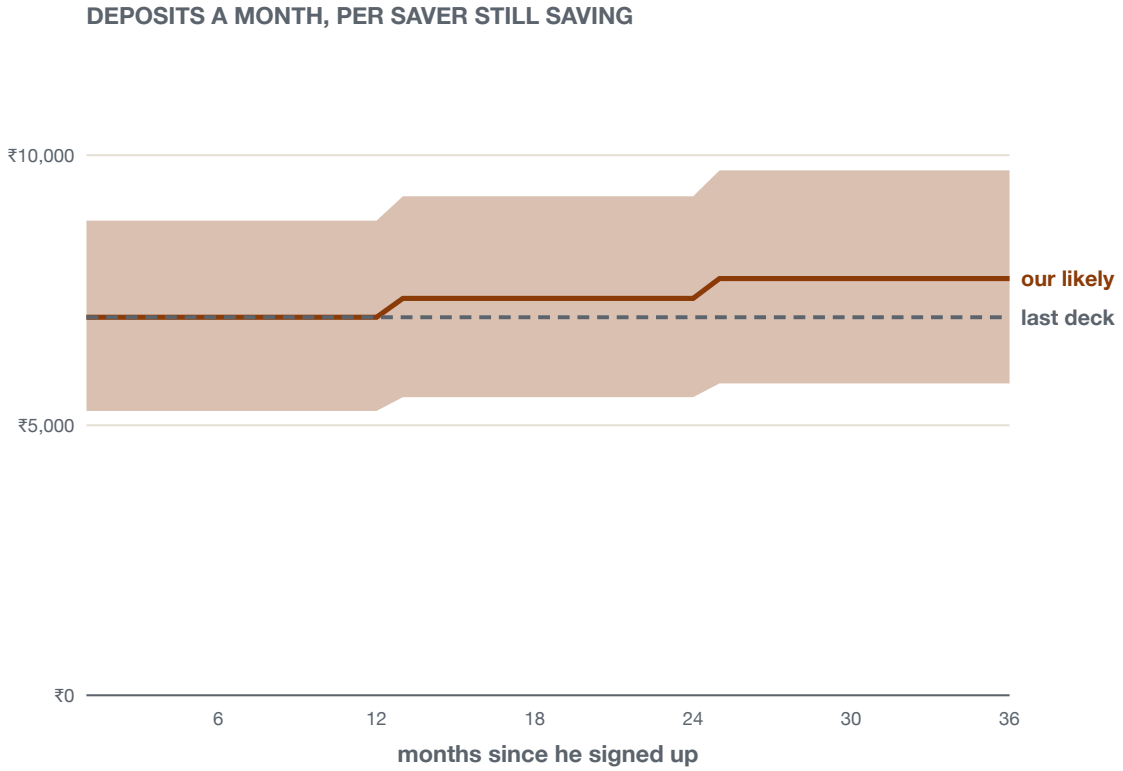

Daily amount: likely ₹350 (₹200–₹500)

Deposit days a month: likely 20 (16–24)

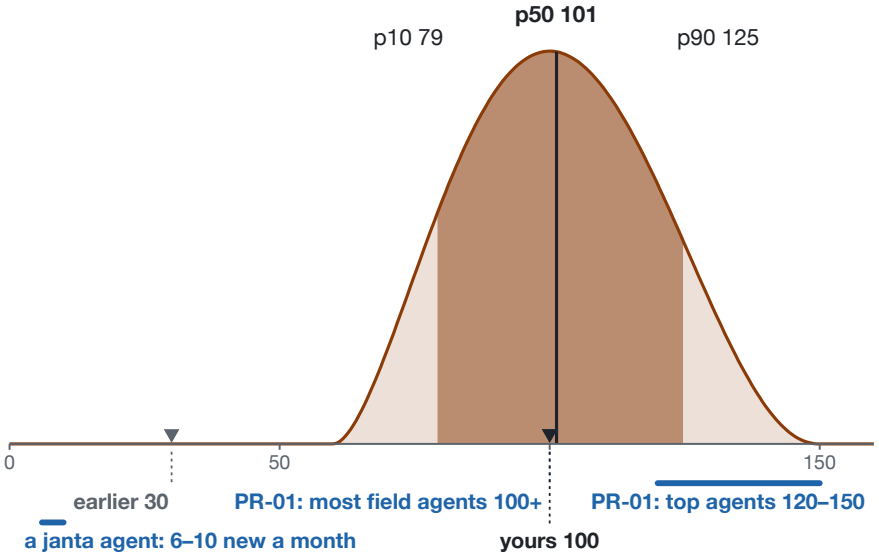

Amount growth a year: likely 5% (0%–10%)

The band is 8 in 10 draws.

Sources: IV-03

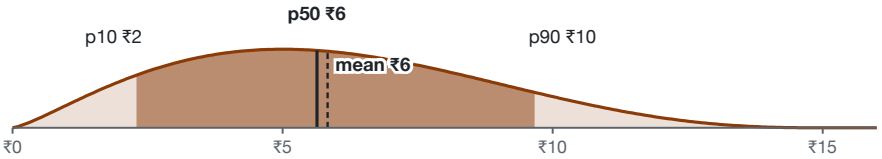

Sign-ups: 100 a month, falling to 70 by year 5

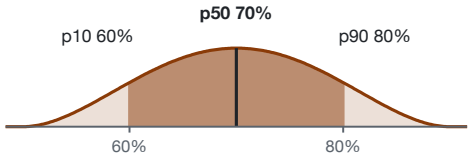

● **Sign-ups a month: likely 100 (60–150), agreed**

Agent pay

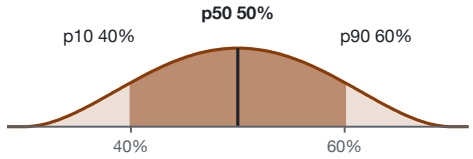

₹20,000 + 0.25% of balance, capped at ₹10,000 a month

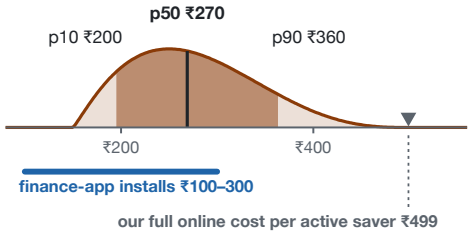

● **Running cost a saver a month: likely ₹5 (₹0–15)**

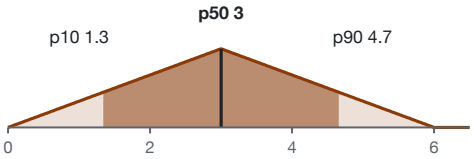

● **By year 5: 70% of year 1**

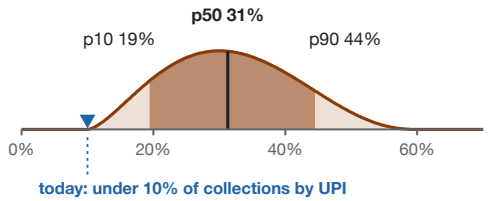

● **Online leads: half**

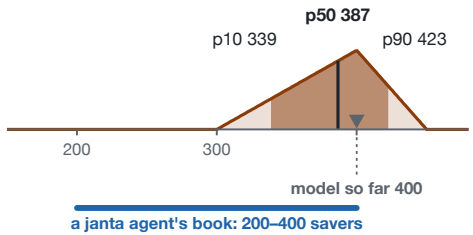

● **Lead cost: ₹250**

● **Full speed: likely 3 months**

● **On UPI by month 12: likely 30%**

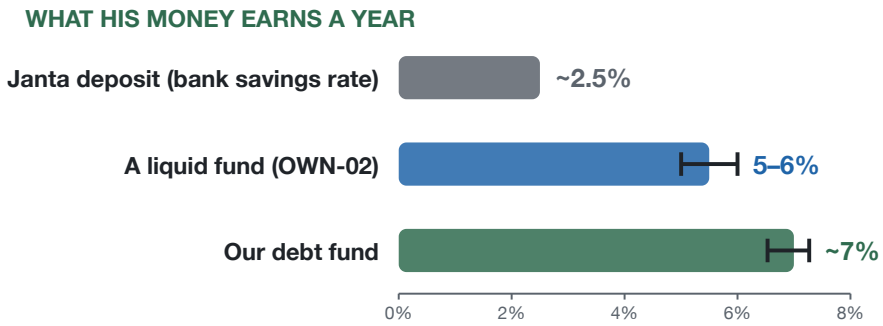

● **Cash visits a day: likely 400**

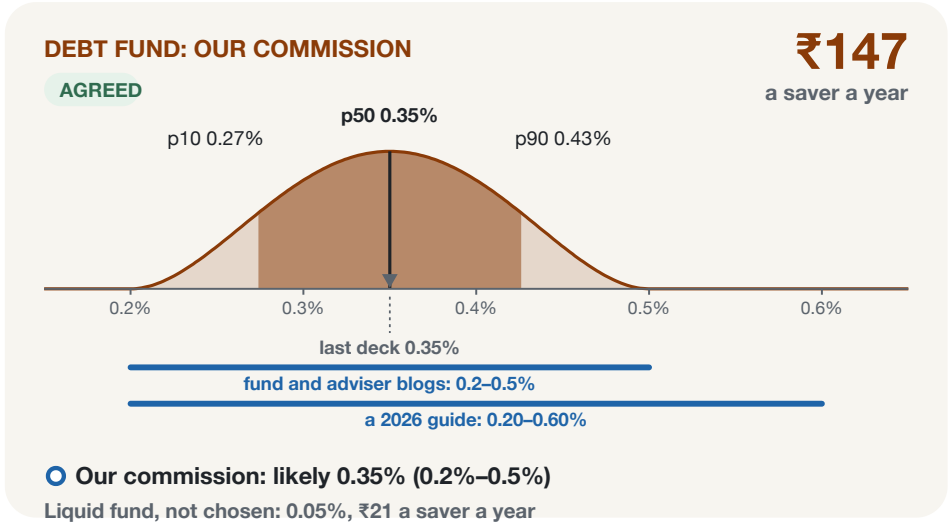

A janta agent collects; he does not sell.

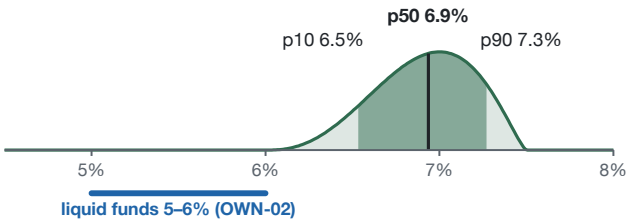

Sources: IV-01, IV-07, IV-12, TC-35, REG-045, REG-069, TB-18, XO-05, NG-033

The hook: his money earns ~7% in a debt fund

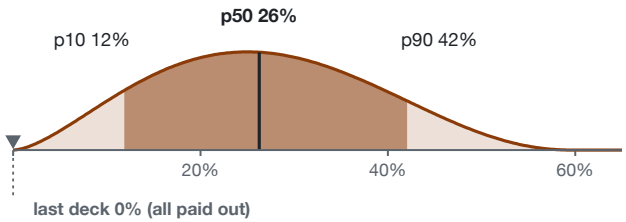

Free to him; about ₹1,890 more a year on ₹350 a day

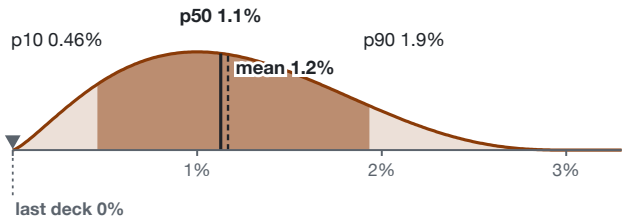

Return to him: likely 7% (6–7.5%), agreed

Left in at term end: 25%, agreed

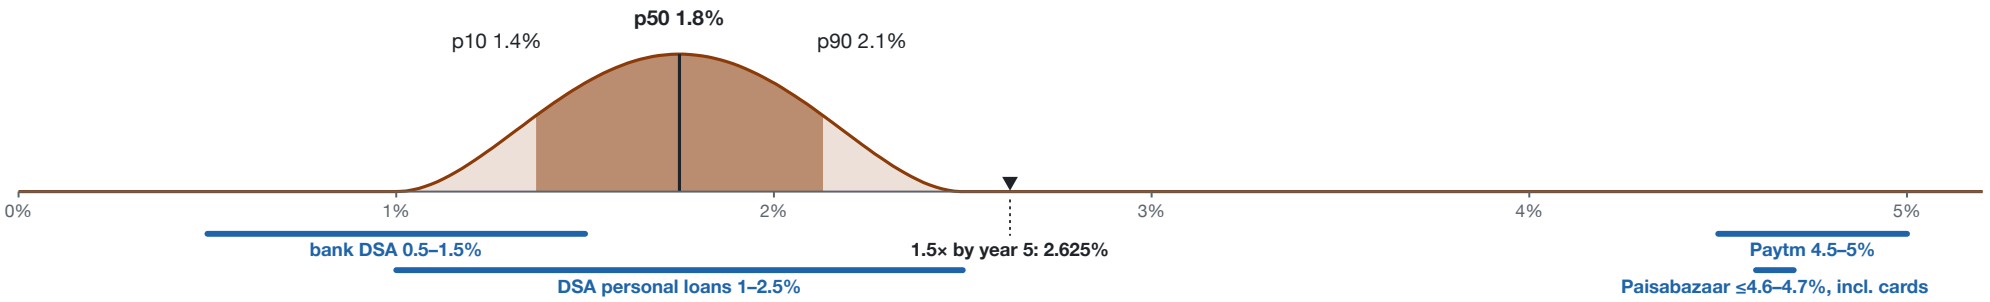

Taken out each month: likely 1%

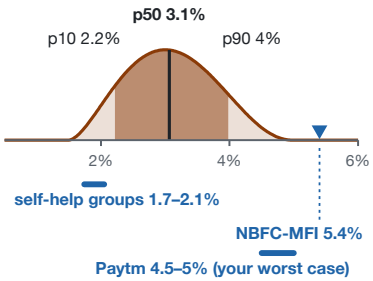

Agreed: a quarter of the balance stays in at term end.

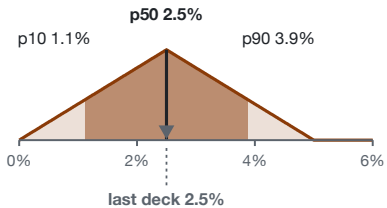

Sources: TC-21, TC-22, TC-23, BM-01, XB-04, OWN-02

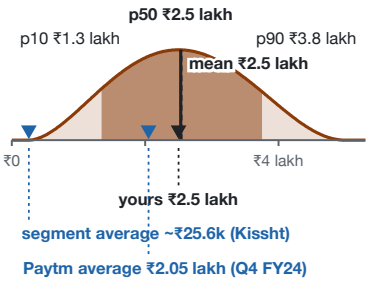

The fee starts at a DSA's rate and rises to 1.5× by year 5

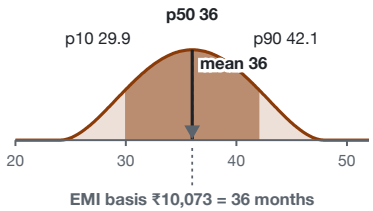

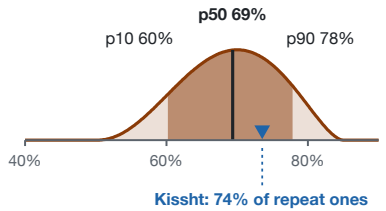

Starting fee: likely 1.75% (1%–2.5%)

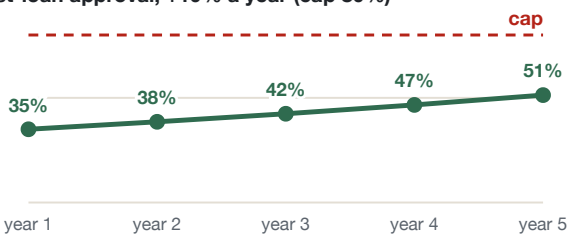

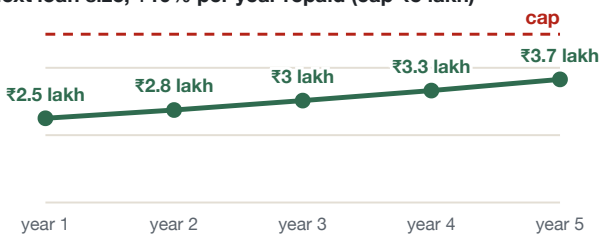

- **Money lost: likely 3%**
- **Taken back: likely 2.5%**
- **Loan size: likely ₹2.5 lakh**
- **Loan length: likely 36 months**
- **Approved, repeat: likely 70%**
  Paytm: >50% of loan money goes to repeat borrowers (NG-028)

GROWS WITH HISTORY: LIKELY VALUES, YEARS 1–5

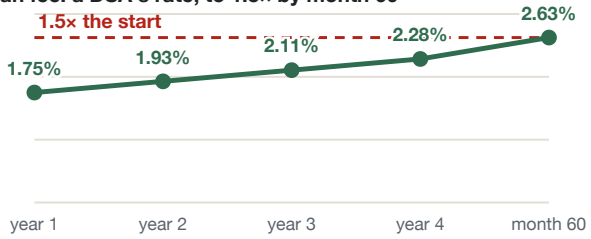

First-loan approval, +10% a year (cap 80%)

Next loan size, +10% per year repaid (cap ₹5 lakh)

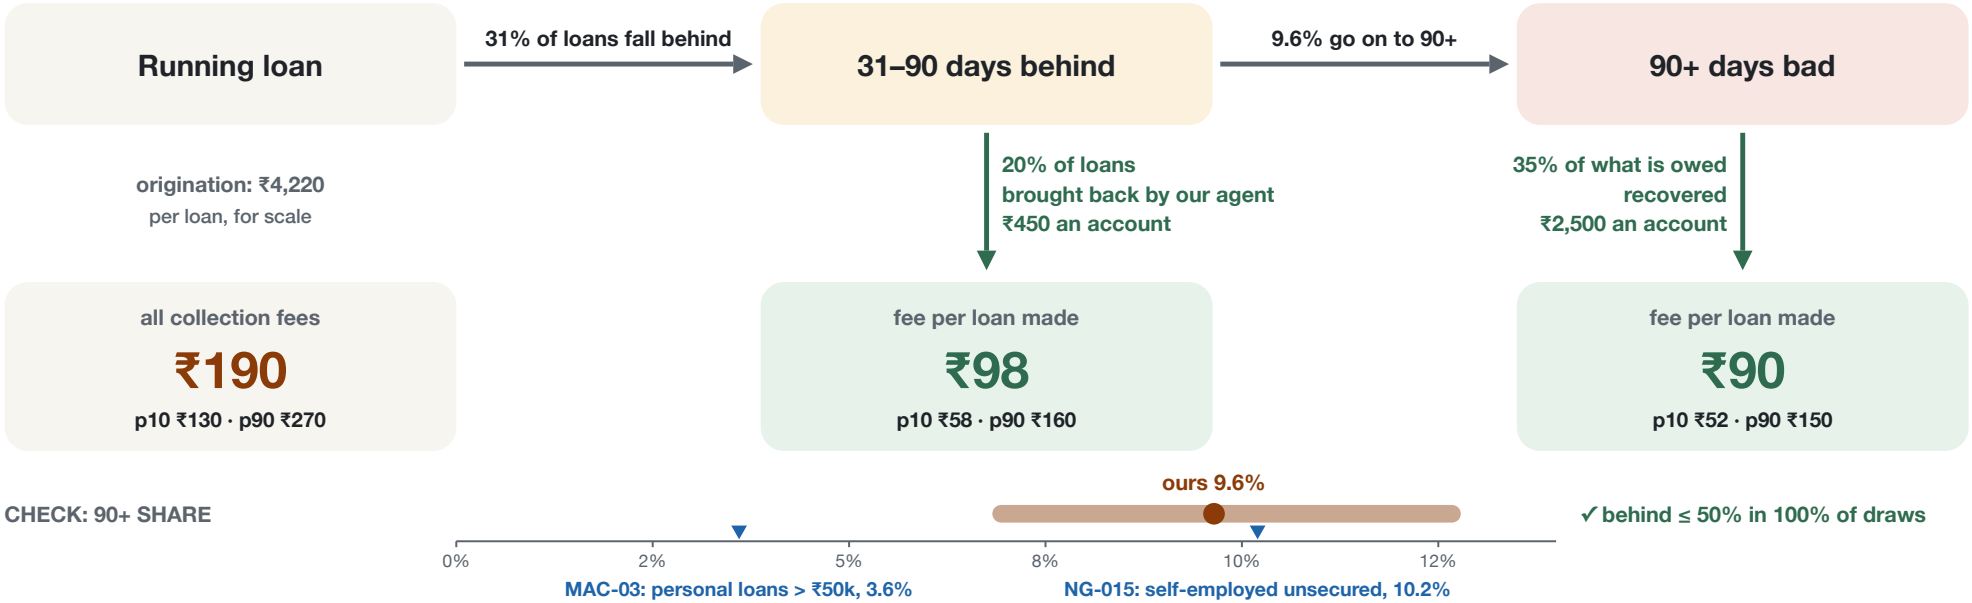

Loan fee: a DSA's rate, to 1.5× by month 60

Worst case = Paytm's losses: our savers chose to save first, and the agent who knows them helps collect.

Sources: LEV-009, XL-07, XL-09, XL-13, XL-41, NG-028, XB-08, XB-07, QM-22, SE-01, EVD-03, SE-02

Collections pay per account, mostly from year 2

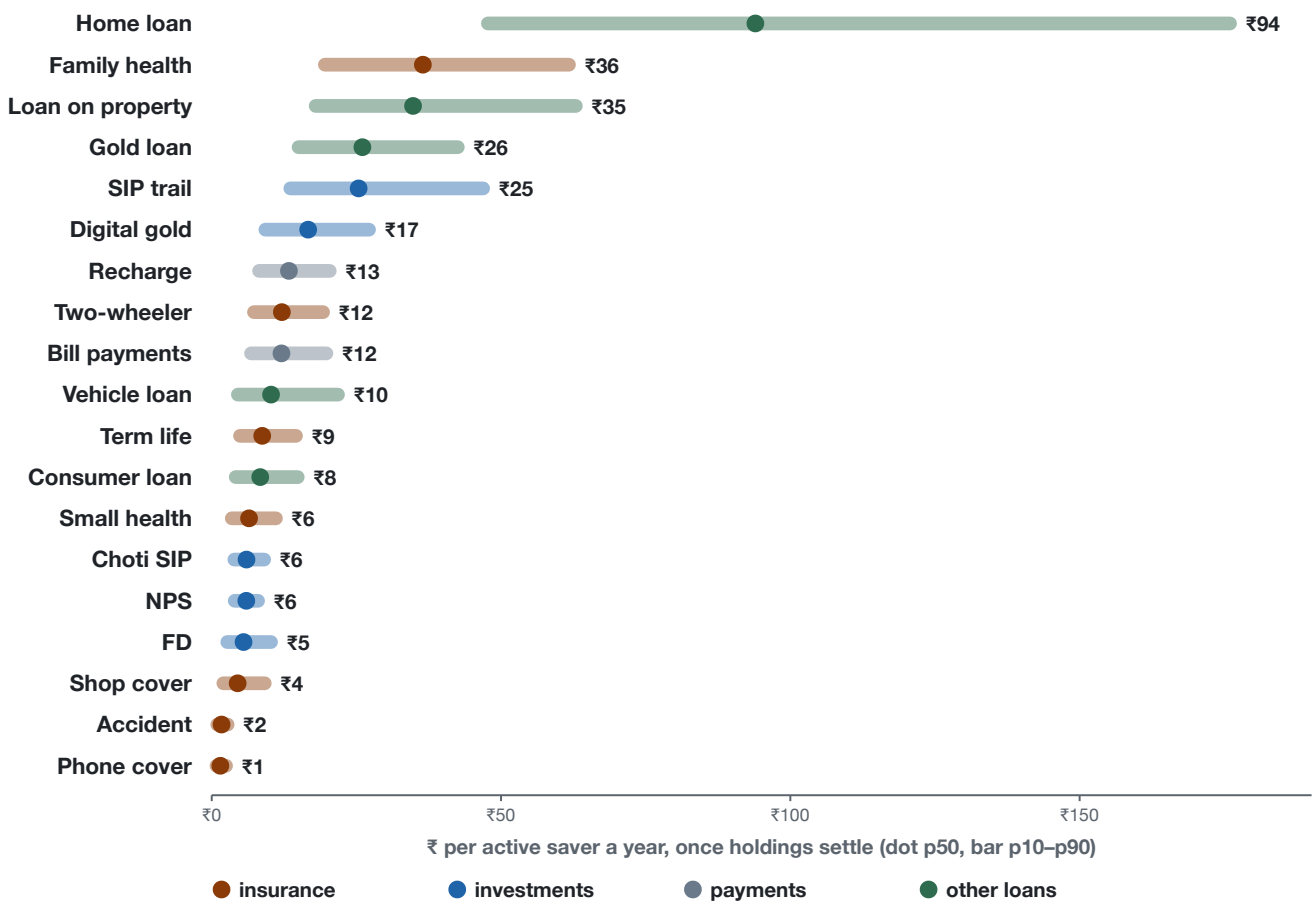

31–90 day fees come ~9 months after a loan; 90+ fees ~18 months. Loss is the anchor: half the loan owed when bad.

Few loans reach these buckets in the pilot year: a loan takes months to fall behind.

Sources: GAP-01, GAP-02, XB-07, NG-015, MAC-03

19 products: about ₹350 an active saver a year, against the old ₹63

ALL PRODUCTS

₹350

p10 ₹290 · p90 ₹440

first-year sales only: ₹280
